

SAVE 50% with Threadprint™

Threadprint Software

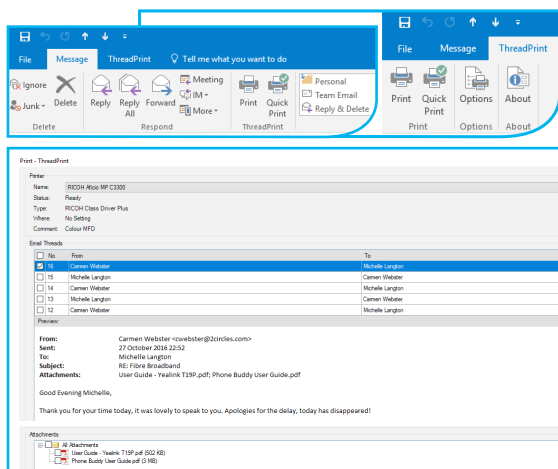

Paper consumption has doubled over the last 10 years. Even with the introduction of electronic filing systems, people continue to print more than ever. Threadprint is a simple and elegant solution to the problem of wasted email prints.

Threadprint enables you to select any thread and; or attachment(s) you want to print. Benefits are:

- Preview and print all or individual threads of an email
- Print email threads and attachments at the same time and to your preferred printer
- Print emails with a single-click using the new Quick Print feature
- Supports nested attachments
- Designed for Microsoft Outlook 2010, 2013 and 2016
- Fully compatible with HP Worksite
- Simple self-implementation
- Increase your 'Green' credentials and reduce the carbon footprint of your business

Stop Waste, Save Money & Reduce Your Carbon Footprint

FREE 30 DAY TRIAL - ENQUIRE NOW

One click quick print on ribbon, which prints latest email thread. One easy to use window, sort by date, sender and select any threads or attachments.

Simple to deploy, support and use, we have an ROI after a 3 month period, having saved 80,000 pages of unwanted email prints! Threadprint is a simple but very effective piece of software.

IT Manager, Wedlake Bell
